

Banyan Treatment Centers Opens 11th Location in Cathedral City, California offering Substance Use Disorder and Mental Health Treatment with Detox and Residential Levels of Care

Cathedral City, CA- Nestled in the California foothills with palm tree lined landscapes and desert mountain views, Banyan Palm Springs will officially open in March 2020. Formerly known as The Desert Palms, Banyan Palm Springs offers resort-like accommodations to give individuals a relaxing environment to focus on recovery from their addiction. This facility marks the 11th location nationwide already having centers in Pennsylvania, Massachusetts, Florida and Illinois. Banyan's expansion to the West Coast started months ago as management and clinical teams traveled back and forth to acclimate to the new facility for training and renovations.

Banyan Palm Springs is a 42-bed facility and will provide a full schedule of therapies including one-on-one counselling sessions, group therapy, Life Skills education, health and wellness education, a family services program, LGBTQ Awareness Programming, CBT, DBT, trauma work and other recovery-oriented activities. Amenities include yoga, serenity bed (Biofeedback) meditation, outdoor pool and jacuzzi, offsite adventures, hiking and serenity walks.

The two main levels of care offered at Banyan Palm Springs are Medically Monitored Detox and Residential Treatment. Patients will receive daily, medically supervised detox and nursing staff is available 24 hours a day. The Residential Program is the next step in treatment after completing the detox process. This program is a "live-in" treatment setting, where patients still have access to around the clock medical services and are now ready to participate in group therapy sessions and therapeutic programming.
